Yes I compare you to a kiss from a rose on the grey Ooh, the more I get of you stranger it feels, yeah And now that your rose is in bloom A light hits the gloom on the grey.

### **Evaluation: A Systematic Approach**

Three studies are presented which combine experimental and computational ab initio approaches: studying the fast dissociations of halogenated methanes in order to construct a self-consistent thermochemical network; investigating the fragmentations of fluoroethenes from timebombs, which break apart very slowly but explosively, to fast dissociators; and uncovering how vital conical interactions underpin both the results of photoelectron spectra and dissociation patterns. Not even the use of camps was a German invention, but had two recent pre- cursors.
